

Notice! Read First

All the safety instructions should be read before the watch is used. They should be retained for future reference and all warnings about the watch should be adhered to.

Safety Instructions, Warnings and Caution:

Store the watch out of the reach of children and infants. If accidentally swallowed, contact an emergency medicine doctor immediately.

Avoid using the watch near nuclear facilities.

The watch should not be exposed to objects filled with liquids, such as vases or swimming pools. As with any electronic product, take care not to spill liquids into any part of the system. Liquids can cause a failure and/or a fire hazard, even though it is IP-65 rated. Light dripping, like light rain, is fine, but try to avoid it.

When the watch exhibits a distinct change in performance, this indicates a need for service.

Please contact us and connect with your service technician who has used replacement parts specified by us or has the same characteristics as the original part. Unauthorised substitutions may cause a risk of fire or other hazards.

Replacing the batteries with an incorrect type or incorrect orientation may cause shorts, excessive heating, and eventually a potential explosion.

Disposing of the batteries in a fire or a hot oven, mechanically crushing or cutting the battery, may result in explosions. Leaving the batteries in an extremely high-temperature environment may also result in explosions or the leakage of flammable liquid or gas.

Exposing the batteries to extremely low air pressure may result in explosions or the leakage of flammable liquid or gas. Do not try to charge or use a unit with a seemingly damaged battery. Only a battery supplied by us, or the model number specified later and installed by qualified personnel should be used.

Be sure to charge the watch using only a trusted USB power source rated at 5V, such as the one from the USB ports of a computer, or by using a dedicated USB charger that is stable and noiseless.

Returns:

Please check our returns and refunds Policy at <https://www.dattabaumstudio.com/returns>

Regulatory and Compliance Adherence:

Product Name: Digital Watch
Model Name: WATCH
Assembled and Tested in Mainland China

Hereby Datta and Baum Studio Company Limited declares that the WATCH is compliant with the following:

EMC Tests (Electromagnetic Compatibility Tests):

EN 55032:2015/A1:2020
EN 55035:2017/A11:2020
EN 61000-3-3:2013/A2:2021
EN IEC 61000-3-2:2019/A1:2021
BS EN 55032:2015+A1:2020
BS EN 55035:2017+A11:2020
BS EN 61000-3-3:2013+A2:2021
BS EN IEC 61000-3-2:2019+A1:2021

FCC (Federal Communications Commission Statement)

FCC 47 CFR Part 15, Subpart B

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Note:

Maximum operating temperature: 85°C

Minimum operating temperature: -20°C

This product includes 2 kinds of batteries. One is a discrete Li-Po Rechargeable battery: DC 3.7V, 120 mAh and another is a coin cell battery: 1.5V, 7.5 mAh (Renata SR416SW)
